**SURF HEIGHTS:**

### Header

- Forecast location
- Date and Time issued

### Forecast for

- Today followed by tomorrow
- Daytime only

### Weather at the beach

- Sky cover and weather
- High Temperature Forecast
- Winds

### Surf Heights

- Average breaking wave height in the surf zone
- Surf height may be larger or smaller due to beach slope and sheltering

### Offshore Waves

- Open ocean forecast wave environment
- Longer period waves can cause set behavior to create larger surf heights

### Predicted Tides for:

- Crescent City and North Spit
- Arena Cove (*Not shown*)
