

Instructions for Obtaining Climate Summaries for Cooperative Weather Stations

The information can be found at <http://www.wrcc.dri.edu>

From this site:

1. Under “Historical Data”, click on “Climate Summaries” on the pull down menu.
2. Click on “Western U.S. Climate Summaries – NOAA coop stations – daily temperature, precipitation and snow”.
3. Click on C. California.
4. Click on the station that you wish to view from the left side menu.
5. The 30 year normals are displayed.
6. Monthly Precipitation Totals can be obtained by clicking on “Monthly Totals” under “Precipitation” on the left side menu.
7. Monthly Snowfall Totals can be obtained by clicking on “Monthly Totals” under “Snowfall” on the left side menu.
